

What do our pupils say?

"I love the chance to use what I have been taught in challenges against other schools."

"Maths is now my favourite subject, I love seeing my scores go up and up"

"I really enjoy practicing my times tables on TTRS, I love trying to beat my friends."

How do we celebrate Mathematics at Pike Fold?

- Weekly celebration assemblies rewarding 'TTRS' winners.
- Gifted and talented pupils representing school in numerous Math Challenges.
- Displays throughout corridors with Math's stars of the week.
- Termly parental workshops.

Mathematics in our community

- Regular parental workshops to promote parental engagement with Mathematics.
- Competitions at local high schools with other local primaries.
- Resource Provision children visit local shops to practice key mathematic skills.

What enrichment takes place as part of the Mathematics curriculum?

- Annual Explore Learning Maths Challenge in which our gifted and talented pupils compete nationally.
- Money Sense Workshops delivered by Natwest promoting a deeper understanding of mathematics in real world context.
- Annual Times Table Rock Star Days where all pupils are encouraged to dress up and challenge their peers and teachers.

What does Mathematics look like at Pike Fold?

- A consistent and progressive approach focusing on a deep understanding of number.
- The embedding of key calculation methods throughout school in line with a robust and comprehensive calculation policy.
- The promotion of problem solving and reasoning skills within every lesson ensuring learning is relevant to the every-day lives of our pupils.
